Dear Mr. Hodges:

On June 11, 1996, a field compliance inspection was conducted for your notice, UTU-070662, located in Section 20, T. 24 S., R. 14 W. Based on our inspection, we have determined the surface disturbance related to your mining operation would not benefit from any reclamation, and that the elements have already begun to reclaim this site. Therefore, this notice case file is closed.

If you restart any mining related activity that causes surface disturbance, then you must re-notify this office at least 15 days prior to the start up of your operations.

Thank you for submitting your notice and for your support in proper management of public lands.

Sincerely,

for Rex Rowley
Area Manager
